ANTWORT ERBETEN AN:

FERNRUF (089) 2105 - 8111

Dear Professor Lederberg,

the Carl Friedrich von Siemens Foundation has started a series of lectures on Expert Systems. The opening has been made by Prof. H. A. Simon in February 1984. A second lecture marking somehow the opposite position will be given by Prof. J. Weizenbaum in June 1984. These lectures deal with the theoretical basis of expert systems. In the continuation of the lectures we would like to have the views from the other side of the fence.

I have therefore the honour and the pleasure to invite you to give a talk on the practical development and use of expert systems. According to our plans the lecture should be given in fall this year.

The Foundation will be glad to cover your travel and living expenses; on the details there will be a separate letter from the Foundation.

It would be a great honour for us to have you as a speaker ✓
in our series of lectures. I remember with pleasure the

lunch speech you gave at the ITT meeting in New York in June 1983. I am sure your talk would cause stimulating and lively discussions with the audience which will consist of knowledgeable scientists.

Looking forward to a favorable reply I am

truly yours,

F. L. Bauer
(F. L. Bauer)
